# Organise a Christian Bookstall

This exercise is not about organisational or promotional ability but about theological discernment.

## Exercise

Organise a Christian bookstall for church, a ministry or a conference.

## Aims

1. To develop theological discernment by choosing books for a bookstall
2. To identify major theological traditions as represented by various authors and publishing houses
3. To think through the 'basic library' for the Christian person

## Apprentices

1. Think through the purpose of the bookstall and what they want Christians to be reading.
2. Think through which books should be included and excluded and why.

## Trainers

- Observe Apprentice's discernment in choosing books, particularly noting if Apprentice is exercising their own theological judgments or just following policy.
